

# Keep Maine from becoming the eastern Las Vegas.

## Is Maine ready for 3 Casinos?

*If Question 1 passes, we'll have:*

- More casinos than any other New England state
- Up to 1 slot machine for every 217 Mainers

## Is it moral for the gambling industry to fleece addicts?

- 90% of casino revenues come from 10% of their customers--addicts & problem gamblers

## As Christians, are we obligated to protect the vulnerable?

- The defeat of Question 1 will save thousands of problem gambler family members from the effects of bankruptcy, abuse, and suicide

**Don't let casinos prey on problem gamblers.**

Dear Friend,

The Christian Civic League has consistently fought gambling expansion in Maine. But this fall with Question 1, we face the worst casino proposal yet.

Here's the deal. While some of us have different opinions on gambling, we all oppose fraud, bribery and ethical violations. But that's just what we'll get with Question 1.

**Question 1 is written so one, and only one person, can own the casino — Shawn Scott.**

Who is Shawn Scott? He is an unethical gambling opportunist with a past full of ethics violations and corrupt dealings.

Here are just some highlights of Shawn Scott's record:

- 13 liens in 6 states
- 37 lawsuits - just between 1992-2000
- \$420,000 total of alleged international bribery by Scott's business partner
- Forged signatures on referendums in multiple states affiliated with Scott
- Denied gaming licenses in New York and New Mexico within a single year

**Question 1 isn't just about opposing gambling. Question 1 is about Shawn Scott with his shady past.**

***Let's put a stop to Shawn Scott and vote NO on Question 1.***

Sincerely,

Carroll Conley, Jr.  
Executive Director  
Christian Civic League of Maine
